

Innovative Chemical Technologies, Inc.

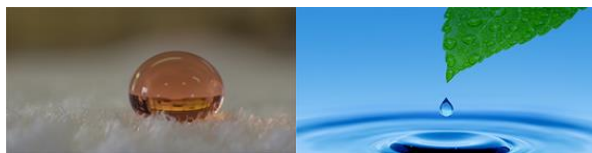

Company Profile

innovative chemical technologies, inc.

About ICT

- Founded in 1997 as a “Synthesis / Reaction” Chemical Company
- Headquarters in Cartersville, Georgia
- Technology Oriented Organization
 - Fluorinated Chemistries
 - Fluorosurfactants
 - Repellents and Protectors
 - Specialty Polymers
 - Odor Neutralizing Materials
 - Renewably Sourced Surfactants and Materials
- Supplier of High Value, Functional Additives
- Problem Solver / Solution Provider
- Three Manufacturing / Production Facilities as well as development and scale-up
- R&D and Analytical capabilities
- Quality Systems
- Global presence
- Continual Re-Investment

innovative chemical technologies, inc.

ICT: Experts in Surface Modification Technology

- Repellency
- Surface Wetting & Leveling
- Surfactancy
- Barrier Coatings
- Hydrophobicity
- Hydrophilicity
- Cleanability
- Soil Resistance
- Stain Resistance
- Odor Absorbers
- Dispersant
- Embrittlement
- Anti-Scalant
- Crystal Modification

innovative chemical technologies, inc.

ICT Technical Platforms

Fluorosurfactants

Fluorinated Specialty Polymers

Hydrocarbon Surfactants

Hydrocarbon Specialty Polymers

Renewably Sourced Surfactants

Odor Absorbers

Renewably Sourced Materials

Hard Surface Repellents & Protectors

Hard Surface Cleaners

**Soft Surface Repellents, Soil Resist,
Soil Release, Stain Resist**

Soft Surface Cleaners

Polymers for Hair & Skin Care

UV Absorbers

Specialty Technologies

innovative chemical technologies, inc.

ICT Market Segments

**Household, Industrial,
and Institutional**

**Coatings, Paint, Ink,
and Adhesives**

Hard Surfaces

Carpet

Textile and Leather

Personal Care

**Agriculture, Energy,
and Mining**

Water Treatment

Paper

Specialty Products

innovative chemical technologies, inc.

ICT Competitive Premise

- Win Through Innovation
- Work with our Customers to “Diagnose” the Need
- Utilize our Knowledge & Skills to “Tailor” a Solution
- Provide solutions in a Flexible, Agile, and Responsive Way
- Continuous New Technology Development
- ***Experts in Surface Modification Technology***

innovative chemical technologies, inc.

ICT Chemical Capabilities

ICT Chemical Capabilities

Alkylation

Amidation

Blending (simple and complex)

Distillation

Emulsification

Esterification

Neutralization

Oxidation

Phosphation

Phosponation

Polymerization

Condensation

Emulsion

Free Radical

Solution (aqueous and solvent)

Quaternization

Urethanes, Urethane polymers and prepolymers

innovative chemical technologies, inc.

ICT Manufacturing Sites

Walnut Grove Site – Cartersville, GA

Riverside Site – Cartersville, GA

Augusta Site – Augusta, GA

innovative chemical technologies, inc.

Innovative Chemical Technologies, Inc., 103 Walnut Grove Rd., Cartersville, GA 30120. 770-607-9340.
