

Product Line

Textile Products

For Mill Application

Nonfluorinated Protectors		
Flexipel HR-C410 Renewably sourced content	Cationic Aqueous-based	Water repellent & protector. Works on broad range of substrates.
Flexipel HR-C500	Cationic Aqueous-based	Water repellent & protector for polyester & cotton.
Flexipel HR-C700	Cationic Aqueous-based	Water repellent & protector for polyester, cotton, rayon, and nylon.
Flexipel HR-A325 Renewably sourced content	Anionic Aqueous-based	Water repellent & protector for polyester, cotton, and fiberglass.
Flexipel HR-N205 Renewably sourced content	Nonionic Aqueous-based	Water repellent & protector for polyester and cotton.
Flexipel HR-C200 Renewably sourced content	Aqueous-based Cationic, VOC-free	Water repellent for treatment of textile substrates. Heat cure is recommended.
Flexipel HR-A210 Renewably sourced content	Aqueous-based Anionic, VOC-free	Water repellent and protector for textile substrates. Provides excellent soil resistance. Heat cure recommended.
Nonfluorinated Soil Resist		
Flexisperse PM-25	Anionic	Soil resist additive for textile protector formulations.
Flexisperse PM-20C	Cationic	Soil resist additive for textile protector formulations.
Fluorinated Protectors (short chain)		
Water-based Upholstery Protectors		
Thetaguard AM-2030	Aqueous-based, low VOC Cationic, F/T stable	Protector which delivers durable oil & water repellency, stain resistance, and durable dry soil resistance.
Thetaguard AM-2040	Aqueous-based, low VOC Anionic, F/T stable	Protector which provides durable anti-soil benefits, oil & water repellency, and stain protection.
Water-based Fabric Protectors		
Thetapel AM-5037	Aqueous-based Mildly cationic, low VOC	Durable repellent & protector for broad range of substrates. Imparts oil & water repellency. Easier cleaning.
Thetapel FC-4030	Aqueous-based Mildly cationic	Repellent and protector for cotton and polyester textiles. Exceptional oil & water repellency and spray rating.
Stain-release Fabric Treatment		
Thetapel FC-4010	low VOC	Wash-durable stain release finish and water & oil repellent.
Antistatic Agents		
Flexistat BP-100	Anionic	100% actives antistatic agent.
Flexistat BK-50-7	Anionic, aqueous-based	50% actives antistat with low odor and low color.
Non-rewetting Surfactants		
Flexiwet NRW	Anionic, APEO-free	Non-VOC, non-rewetting surfactant with exceptional wetting.
Flexiwet NR-50	Nonionic, APEO-free	Low odor, non-rewetting and penetrating surfactant.
Durabilizers/Crosslinkers		
Flexipol DMP-20	Blocked isocyanate Nonionic	Aqueous crosslinking agent which improves durability of DWR and soil release finishes for textiles.
Flexipol MBS-35	Blocked isocyanate Nonionic	Aqueous crosslinking agent which improves durability of DWR and soil release finishes for textiles.
Flexipol MKO-20	Blocked isocyanate Nonionic	Aqueous crosslinking agent which improves durability of DWR and soil release finishes for textiles.
